CPS353: Internet Programming
Homework Assignment 8: Learning Objective-C
Due Wednesday, December 11 by the start of class

This assignment gives you the chance to learn and practice the Objective-C programming language using an interactive website.

For full credit, you will need to complete the course described below and submit screenshots to the instructor verifying you have finished it.

Log Into Your Code School Account

To begin with, you'll need to sign into the Code School account you created for Homework 4.

1. Open your favorite browser and go to http://codeschool.com.

2. Click the "Sign In" button at the top right of the page. Fill out and submit the login for that appears.

3. Once your account is created, you'll be taken to the Dashboard screen, which displays your current courses and your progress in each.

Try Objective-C

Browse to http://tryobjectivec.codeschool.com. Complete the course you find there by working through each challenge the site presents to you. This course should take about 2 hours to go through, so be sure to budget your time accordingly.

Capture a screenshot of the course completion/wrap-up page for this course. You will need to submit this to the instructor as proof that you finished the course.

Code School Dashboard Screenshot

Once you've completed this course, return to http://codeschool.com. If necessary, sign into your account, and proceed to your Report Card page.

Capture a screenshot of the Report Card page including your username, the Course Progress and/or the Completed Courses displays. NO CREDIT WILL BE GIVEN WITHOUT THIS SCREENSHOT.

Turn In…

Submit the following materials to the instructor via email.

- **Your screenshot of the course completion page of the Try Objective-C course.**

- **Your screenshot of your Code School Report Card page.**
